

Lucas County's citizens are hardworking and civically engaged people. They are also among the least healthy in Ohio. Our collective health struggles impact every part of our community: healthcare costs, productivity, life expectancy and quality-of-life.

The Toledo-Lucas County Health Department is committed to being a catalyst of a community effort to make us all healthier. We will only make progress with a broad-based initiative, in which those of us who have the power to make a change are committed to taking action.

We believe you are such a leader,
so we are inviting you to our

1ST LEADERSHIP SUMMIT

Wednesday, April 26, 2017

8:00 a.m. – 1:30 p.m.

St. Luke's Hospital Auditorium

We will discuss some of the region's most pressing health issues, like the opiate epidemic, infant mortality and obesity among children and adults. We will engage with our community's leadership, ask them to join the conversation and challenge them to be involved in taking the next steps to transform our community's health.

RSVP by email at frankm@co.lucas.oh.us or call 419.213.4018.
