

## *2018 Toledo Heart Ball*

*Saturday, March 24, 2018*

*Hilton Garden Inn, Levis Commons-Perrysburg, OH*

The Toledo Heart Ball is a premier event benefiting the American Heart Association and American Stroke Association. The Heart Ball raises funds for education and meritorious research specific to heart disease and stroke. The memorable evening is a celebration complete with fine food, elegant ambiance, and lively entertainment. The event draws Greater Toledo's most prominent leaders from the corporate, medical, educational, and social communities. Last year, funds raised at Heart Ball events nationwide allowed us to fund over \$73 million of research and programs across the country and in our community.

As a result of the funding made available by the Heart Ball, more parents watch their children graduate from high school, more grandparents have been able to spend time with their grandchildren, and fewer babies and kids have lost their lives to congenital heart defects. This year, we have our sights set higher in our ambitious fight to change the course of the number one killer that affects everyone – men, women and children.
