COMPANY PROFILE

Complete Laundering Services specializes in the laundering of industrial textiles, specifically gloves and personal protective equipment (PPE).

We are a full service provider and have the capabilities to offer water wash or dry cleaning processes depending upon our customer's specific needs. We are licensed and can provide cost effective solutions for any budget by offering by the piece or bulk pricing by the pound.

We specialize in cleaning gloves. We clean, separate, inspect and match the pairs, strapping them together. If desired we will also monitor glove inventory for you and replace those showing signs of wear and add back into inventory.

Our company was founded in 1994, based at our current location for the past 13 years.

We schedule pick-up and delivery based on your schedule. We pride ourselves on our quick turn around time. Our week to week service keeps our customers running on schedule. Expedited services are available.

Complete Laundering Services will provide you with efficient cleaning services to suit your budget and needs.
